Skate Canada Skills Assessment STAR 6

Standards of Assessment

Standards			
CRITERIA <small>*Overall element assessment cannot exceed criteria rating</small>	BRONZE (below standard)	SILVER (standard)	GOLD (above standard)
Accuracy* Correct skating technique, symmetry and shape of edges.		Three-turns: Edge entering and exiting the turn is solid and strong, with good flow and symmetry. Brackets, rockers, counters: Edge comprehension developing. Skater generally uses correct skating technique and pushes from the side of the blade. Equal thrusts on both feet in crosscuts. Correct knee action.	
Carriage/Clarity Carriage and clarity of movement.		The skater has reasonable upright carriage. Body positions are generally pleasing. Movements may appear rushed or incomplete.	
Edge Quality Balance, control, and edge depth.		Edges correct but may be shallow. Skater demonstrates some examples of control and balance but may be limited. Three-turns: Edges present strong depth, control and balance. Brackets, rockers and counters: Edge entering and exiting the turn may contain wobbles or a flat for 50 % of the edge, with limited flow and symmetry.	
Power* Varied use of power, speed, acceleration, flow and glide.		Power is developing. Skater generally uses blade pushes to generate and maintain a reasonable amount of speed. Limited evidence of acceleration, changes in speed, flow and glide.
